Detailed Action

1. Claims 1-30 are presented for examination. This office action is in response to the application filed on 1/16/01.

2. Applicants are reminded of the duty to disclose information under 37 CFR 1.56.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

4. Claims 1-5, 11-15, 21-25 are rejected under 35 U.S.C. 102(e) as being anticipated by Hsu et al. (Hsu) U.S. Patent No. 6,453,411.

As to claims 1, 11, and 21, Hsu, discloses an apparatus comprising: a cache management logistics to control a transfer of a trace (Fig. 2); an execution unit (Fig. 3 ref. 301); a first cache (Fig. 1 Ref. 105 and col. 7 lines 5-12); and a second cache (Fig. 2 Ref. 101 and col. 5 lines 19-30).

As to claims 2, 12, and 22, Hsu, further discloses a usage counter (col. 6 lines 13-14).

As to claims 3, 13, and 23, Hsu, further discloses a comparator (col. 6 line 16, when counter reads on this limitation).

As to claims 4, 14, and 24, Hsu, further discloses the trace is transferred from the first cache to the second cache (abstract).

As to claims 5, 15, and 25, Hsu, further discloses the trace is discarded (col. 7 lines 5-25).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 6, 10, 16, 20, 26, and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hsu et al. (Hsu) U.S. Patent No. 6,453,411 in view of Jim Handy (Handy), "The Cache Memory Book", 1993, Academic Press, pp 37-107.

As to claims 6, 16, and 26, Hsu disclosed the invention as claimed, however, Hsu does

not disclosed a L2 cache.

Handy discloses a L2 cache (Section 2.2.10) for the purpose of increasing the access speed thereby increasing the system speed.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to add a L2 cache as taught by Handy into the HSU for the advantages stated above.

As to claims 10, 20, and 30, Hsu disclosed the invention as claimed, however, Hsu does not disclosed a LRU replacement policy.

Handy discloses a LRU replacement policy (section 2.2.2) for the purpose of increasing the hit rate thereby increasing the system speed.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate a LRU replacement policy as taught by Handy into the HSU for the advantages stated above.

Allowable Subject Matter

7. Claims 7-9, 17-19, and 27-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892.

10. Applicants are requested to number each line of each claim starting with line number one to provide easier communication in the future.

Attachment for PTO-948 (Rev. 03/01, or earlier)
6/18/01

The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

1. Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes **incorporated** therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

Timing of Corrections

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
